

Before You Get In The Car

1. Make sure you are well rested and not impaired by alcohol or medication.
2. Be sure you know your car's equipment (adjust the mirrors, seat and other controls so you are in full control of the car).
3. Use your seatbelt! Seatbelts keep you in the car. People thrown from a car quickly become a fatality.
4. Turn on the car's lights. Lights not only enable us to see where we are going, they make our car easier to see by other cars.
5. Know where you are going before you start your journey. Fumbling with maps or even sophisticated navigation systems distracts us from the task of driving.
6. Never use your cell phone. Studies show that even hands-free speaker-phones divert much of our attention from the road.
7. Eliminate as many distractions as possible. Pull over to deal with a crying child or an upset pet.
8. Keep a First Aid kit, cold weather survival items and disposable camera in your trunk or glove box.

If You Are In A Collision

1. Make sure you and your passengers obtain appropriate medical care as soon as possible.
2. Call 9-1-1 for an ambulance and Police.
3. If your car is still driveable, move it well off the road onto the shoulder or next to the curb.
4. Tell the responding Officer or Patrolman your observation of the crash.
5. Get the names of any witnesses, their telephone numbers and addresses.
6. Get the other driver's name, address and insurance company information.
7. Photograph the other driver and their car, including the car's license plate.
8. DO NOT provide a written or tape recorded statement to any insurance adjuster who represents the other driver who caused the collision.
9. Call us at the Brosnahan Law Firm, P.A. as soon as possible so our investigators can collect and preserve the evidence you will need to win your case.

When You're Injured... Results Matter

Our team is trained in Medicine, Investigation and Photography. We investigate and work with your doctors to better understand your condition.

Together we help you decide the value of your case. We will negotiate with insurance companies on your behalf. We won't hesitate to file a suit to protect your rights.

Our fees are based on a percentage of your recovery. There's no charge for telling us about your case, and you won't have to pay us until you receive a check.
